iPRINT

Streamlined Card Printing & Linking Solution

iPrint is a flexible card printing solution for financial institutions, supporting debit, credit, and prepaid cards. It integrates seamlessly with core banking and card management systems, generates customizable reports, and is compatible with specialized printers like Evolis Primacy 2, Entrust, and IDP, ensuring secure and efficient card production.

KENYA UGANDA TANZANIA

About iPrint Solution

iPrint® is a card printing solution by CompuLynx designed to make card issuance easier for banks and financial institutions. It allows branch locations to print customer names on pre-printed cards and link them to bank accounts instantly. iPrint works with various printers like Evolis Primacy 2 and Sigma series and integrates smoothly with Core Banking Systems (CBS) and Card Management Systems (CMS). Security is ensured with RSA, 3DES, and AES 256 encryption.

The software easily adapts to new card management systems and meets international standards with modules like Card Issuance, Administration, Masters, and Reports. The Masters module manages printer types, card types, and branches, while the Printer Types module allows users to add printers. Overall, iPrint makes card printing simpler, secure, and efficient.

iPrint Key Features

User Authentication
- Username and password entry
- Password reset prompt for first-time login

Card Issuance
- Print Debit, Credit, and Prepaid cards

Card Types
- Debit and Credit Card support

Branch Management
- Add, edit, and Manage branches
