eBeneficiary Management

eBeneficiary Management

Trusted by leading NGOs, eBeneficiary Management enables secure data handling, automated Verification, and Efficient Aid Disbursement to 3M+ Beneficiaries across 11 countries. Designed for scalability, it ensures fast, accurate, and impactful humanitarian efforts while enhancing Transparency and Accountability in Aid Distribution.

KENYA UGANDA TANZANIA

About Beneficiary Management

COMPAS eBeneficiary Management is a versatile Web, Mobile, and POS-based system designed for managing aid beneficiary identities and entitlements across multiple programs and wallets. Supporting cash, cashless, and eVoucher programs, it ensures seamless aid distribution with real-time monitoring and evaluation. Whether in emergency response or long-term development.

COMPAS WorldWide Impact

15 Million

Beneficiaries

COMPAS Supports Multiple Interventions

Cash /Cashless Disbursement
Easily collect beneficiary KYC data and disburse set amount per beneficiary through network of 3rd-party agents serving beneficiaries on your behalf.

Commodity Disbursement
Using the solution card beneficiaries are topped up with a cash value which can be redeemed from specified Bank Agents or Vendors.

School Feeding
Leverage on biometric enrollment of school children in feeding programs in schools.

Medical Equipment's & Vaccines
Offers easy distribution and claims of medical to registered beneficiaries even in the most remote areas.

Farmers Equipment, Pesticides and Seeds
Ensures seamless allocation of farming equipment, pesticides, and seeds to support agricultural productivity and sustainability.

Social Protection / Safety Nets, National Disaster Program
Facilitates secure and efficient distribution of aid, ensuring vulnerable populations receive timely support through safety nets and national disaster programs.

Class Attendance
Link meal disbursement to attendance of classes.

eBeneficiary Key Features

Biometric Registration
This feature eliminates duplicate claims by using Biometric data such as Fingerprints, Facial Recognition, Voice, or IRIS scans

Single Identity Management
Ensures that assistance goes to the right person by maintaining a single identity for each beneficiary

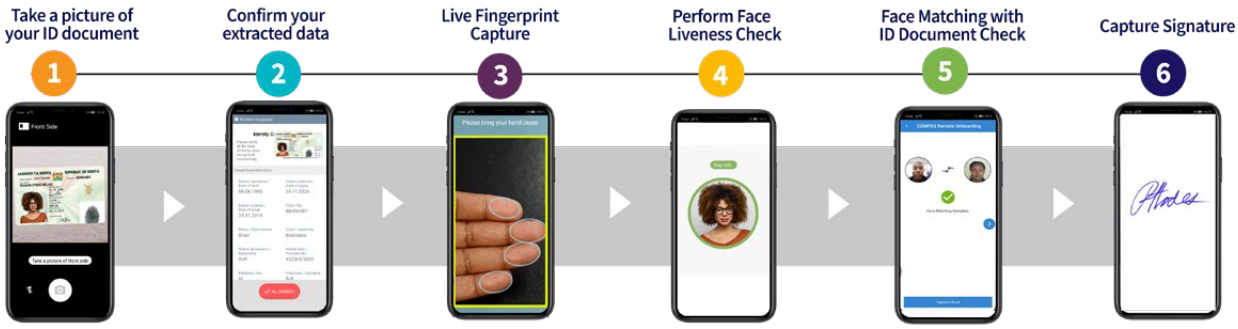

Offline Capabilities
Allows the system to work in remote areas with little or no connectivity.

Customizable Reports
Provides tailored reports to meet internal, coordination, and donor requirements

Real-Time Monitoring and Evaluation
Offers real-time analysis of transactions and operational data for effective monitoring and evaluation.

Support for Multiple Program Types
Supports various program types, including cyclic and non-cyclic programs, ensuring flexibility and a daptability to different beneficiary needs.

eBeneficiary Key Benefits

One Unified Identity
Secure biometric authentication (Fingerprint, Face, Voice, or IRIS) ensures a single identity for each beneficiary

Seamless Data Sync
Automatic background sync between devices and servers keeps data updated even in low-connectivity areas.

Instant Custom Reports
Generate reports that meet internal, coordination, and donor requirements at the click of a button.

Full Visibility & Control
Track beneficiary claims and distributed benefits with real-time analytics.

Rapid Registration Process
Days to Hours! Cut down registration time with fast biometric enrollment.

No More Fraud & Duplicates
100% Accuracy! Eliminates duplicate claims, ensuring fair distribution.

Works Anywhere, Anytime
Offline Mode! Operates in remote areas with little or no connectivity.

Cash Plus, School Feeding
Supports cash-based assistance and school feeding programs to improve social welfare.

Trusted by Leading NGOs
Scalable & Reliable—Proven success in large humanitarian aid programs.

Supports Smart Cards
Enables secure transactions and authentication with smart card technology and Multi-Device Compatibility.

ADRA

> "Using the eBeneficiary Management system, we have delivered humanitarian assistance to over 500 households in a manner that gave dignity to beneficiaries in Locust Infested area; by giving them a degree of freedom in terms of their choice of when and where they could redeem their supplies, compared to the traditional methods where the beneficiaries had to queue for their food supplies, at a specific time and place."

Transform your Beneficiary Identity and Aid Disbursement Today!
